CP Watchparts Pick & Placer

MACHINE CP Watchparts Pick & Placer

Modularity

The standard modules are compatible with additional options.

Flexibility

The machine can handle parts of different geometries, from 0.1 to 50 mm.

Reliability

Compact, flexible machine design, based on the standard elements of the CP Series platform.

Traceability

Communication is possible with a MES or CAPM system.

[more info...](#)

"Thanks to the standard machines in our CP Move range, our customers have drastically increased the productivity of their assembly, palletization and handling operations."

Bérangère Boetsch, Project Manager
