Optical Character Recognition (OCR)

CP view

APPLICATIONS

1   Reading the item name on rollers
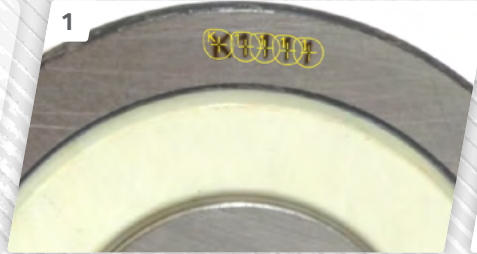

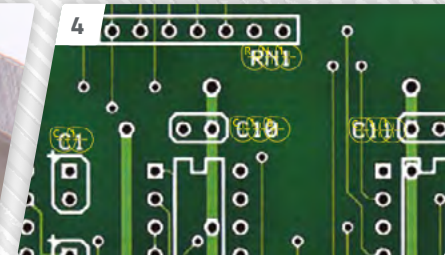

2   Reading text on injected plastic parts

3   Reading the serial number on roller bearings

4   Reading text on printed circuit boards (PCB)

5   Reading indexes on dials

6   Reading text on plastic film

MACHINE CP Optical Character Reader

*available in **DESKTOP** version*

CP Optical Character Reader Cell

🔑 Turnkey
No lines of computer code are required.

✂ Flexibility
Able to inspect parts of various geometries, textures and dimensions.

⏱ Speed
The reading cycle time is optimised.

👓 Traceability
The machine is able to save all the recognition operations performed.

more info…

> *"By mimicking the functions of the human brain, the technology enables to automate inspection tasks that cannot easily be performed by traditional industrial vision systems."*
>
> Bérangère Boetsch, Project Manager
